

TUTT BRYANT
POWER PRODUCTS  SERVICES

TUTT BRYANT POWER PRODUCTS

Mobile BESS Charger

- 100kW/210kWhr CATL LiFePO₄ batteries
- Transportable by trailers, forklifts and cranes
- Zero emissions
- Australian Standards compliant – Electrical and Fire Suppression
- 415VAC with 125A, 63A, 32A, 20A, 15A (240VAC) outlets

Tower Crane & Hoist Battery Power

- Ranging 160kW/82kWhr up to 450kW/625kWhr
- Power source: Grid, Solar and Generator input modes with parallel and series arrangements
- Ideal for construction sites, mine sites, and remote area applications

Diesel Generators

- AJ Power – UK based Engineering Excellence
- 10kVA to 3000kVA open and containerised solutions
- Stage V engine emissions option
- Tier 1 Global Alternator, Engine and Controller options
- 100% Factory Acceptance Testing
- 50 Deg C ambient temperature rating

Solar Skid

- Rapid deployment, stackable solar skid
- 3 x 440W PV panels on slide out rails
- Connect up to 3 systems in series
- Power for construction sites, battery powered plant, lighting towers and mobile offices

Energy Metering

- Gain real-time insight with Tutt Bryant energy logging services
- Advanced data logging software and equipment
- Comprehensive reports highlighting efficiency enhancing opportunities
- We align with our customers sustainability targets
- Increase efficiency, plant electrification and low carbon fuels usage

A Series

- Power from 100kW to 1000kW
- LiFePO₄ batteries
- Power source: Grid & Generator with AC coupled PV
- Nominal rated capacity from 200kWh to 2000kWh
- Australian Standards compliant – Electrical and Fire Suppression

E Series - Hybrid

- Power from 10kW to 50kW
- LiFePO₄ batteries
- Power source: Grid, Solar (DC, Coupled) and Generator input modes
- Nominal rated capacity from 40kWh to 110kWh
- Power for construction sites and residential areas
- Australian Standards compliant – Electrical and Fire Suppression

R Series

- Power from 20kW to 675kW
- LiFePO₄ batteries
- Delivering reliable, safe and continuous power
- Power source: Grid, Solar and Generator input modes
- Nominal rated capacity up to from 60kWh to 660kWh
- Power for remote areas and construction sites
- Australian Standards compliant – Electrical and Fire Suppression

BCH Series - Mobile Fast Chargers

- Power: 125kW AC and 150kW DC
- AC and DC fast charging
- Optional trailer
- Zero emissions
- Dual CCS2 charging guns (2 x 120kW)

GSB Series - Hybrid Standalone Systems

- Rapid deployment
- PV panels on slide out rails (2.3kW)
- Batteries, solar and diesel generator
- Scalable and modular sizes to meet site requirements
- Power for remote areas, construction sites, and microgrid
- Renewable power solution for fringe-of-grid

TUTT BRYANT GO GREEN

ABOUT

Tutt Bryant Go Green aims to introduce innovative and sustainable products, services, and solutions to the domestic market by tapping into the vast and diverse network of global partners and suppliers that have been meticulously assembled by Tutt Bryant over the years.

It is also Tutt Bryant's goal to develop home-grown solutions that are optimised to Australia's unique conditions by utilising in-house capabilities and collaborating with local enterprises.

Go Green provides a reliable national approach, aligned with our customers sustainability targets including:

- Energy Efficiency
- Plant Electrification
- Low Carbon Fuels and Energy Sources

Our Approach

The Tutt Bryant Go Green initiative seeks to increase the sustainable options available in Tutt Bryant's portfolio through:

- Working with our committed OEM partners
- Broad collaboration with a multi divisional focus
- Leveraging from our depth in resources
- Reliable National approach
- Financing options
- Balance of Plant capability
- Testing facilities
- Aligning growth with our customers
